Sub: - status of tube well.

Sir,

I am sending here with a list of the names of 28 nos of school which have no tube wells in their campus .In this reasons , the students of these schools go to collect the drinking water from outside of the school campus regularly .We are worried about it.

So, I earnestly request you to sink some deep bore wells so that they can get safe drinking water regularly without travelling long distance to collect drinking water.

Enclo:-List of names of school.

Thanking you
